## Indus Blood Center Inaugurated by CM Sindh

The Indus Hospital inaugurated the Indus Blood Center, a state-of-the-art facility in Sindh, Pakistan. The center aims to address the blood shortage crisis by collecting, testing, and storing blood. The Chief Minister of Sindh and government officials attended the ceremony, highlighting the importance of the initiative. With advanced technology and trained staff, the center will enhance blood transfusion services and encourage voluntary donations, ultimately saving lives and promoting public health in the region.

## Milestone Achievement: Indus Hospital's New Warehouse

The Indus Hospital has achieved a significant milestone with the establishment of its new warehouse facility. The purpose-built warehouse will play a crucial role in the hospital's supply chain management, ensuring efficient storage and distribution of essential medical supplies. This development will enhance the hospital's capacity to provide quality healthcare services to a larger number of patients. With state-of-the-art infrastructure and streamlined operations, the warehouse represents a major step forward in strengthening the hospital's capabilities and expanding its impact on public health.

## Inauguration of Indus Hospital Trauma Center in Lahore

The Indus Hospital has inaugurated a state-of-the-art Trauma Center in Lahore, Pakistan, in collaboration with Qatar Foundation and National University of Science and Technology (NUST). The center will provide specialized emergency care to trauma patients, equipped with modern facilities and staffed by highly trained medical professionals. This development is a significant milestone in improving emergency medical services in the region and ensuring timely and effective treatment for trauma victims.

## I-CCR INDUS CODING & CANCER REGISTRY

### Introducing the I-CCR Program by Indus Hospital

The Indus Hospital has launched the I-CCR Program, an innovative initiative aimed at improving cancer care and research in Pakistan. I-CCR stands for Indus Center for Cancer Research, and the program focuses on enhancing cancer treatment outcomes through advanced research, education, and patient support. With a multidisciplinary approach, the program aims to provide comprehensive cancer care services while fostering collaboration among healthcare professionals, researchers, and patients. The I-CCR Program is a significant step forward in addressing the growing burden of cancer and promoting advancements in cancer treatment and research in Pakistan.

### Indus Hospital and ChildLife Foundation Sign MOU

The Indus Hospital and ChildLife Foundation have signed a Memorandum of Understanding (MOU) to strengthen their collaboration in improving pediatric healthcare services in Pakistan. This partnership aims to enhance the quality of care provided to children by leveraging the expertise and resources of both organizations. Through this MOU, the Indus Hospital and ChildLife Foundation will work together on various initiatives, including capacity building, training programs, and the development of pediatric healthcare standards. This collaboration signifies a shared commitment to ensuring the well-being and health of children, bringing us closer to a brighter and healthier future for the young generation.

### Indus Hospital and Chanan Development Association partner with Prince's Trust International

The Indus Hospital, in collaboration with Chanan Development Association, has partnered with Prince's Trust International to empower youth through skill development and entrepreneurship. This joint initiative aims to provide training and support to young individuals, equipping them with the necessary skills to pursue their entrepreneurial dreams and contribute to the local economy. The partnership will leverage the expertise and resources of all three organizations to deliver comprehensive programs that focus on personal development, business planning, and mentoring. By investing in the potential of the youth, this collaboration seeks to create opportunities for economic growth and social upliftment in the communities they serve.

## Indus Hospital joins hands with PSL and ICCD 2023

The Indus Hospital has collaborated with the Pakistan Super League (PSL) and the International Conference on Communication Disorders (ICCD) 2023 to support and raise awareness about communication disorders. This partnership aims to highlight the impact of communication disorders on individuals and the importance of early diagnosis and intervention. Through this collaboration, the Indus Hospital, PSL, and ICCD 2023 will work together to create initiatives that promote understanding, provide resources, and offer support for individuals with communication disorders. This alliance underscores the commitment of all parties to address communication disorders and improve the quality of life for affected individuals in Pakistan.

## IH and Total Parco Launch Mobile Medical Unit

The Indus Hospital and Total Parco have partnered to launch a Mobile Medical Unit, providing accessible healthcare services to underserved communities in Pakistan. This initiative aims to bring quality medical care directly to people in remote areas, who often lack access to basic healthcare facilities. The Mobile Medical Unit is equipped with necessary medical equipment and staffed by trained professionals, enabling it to provide primary healthcare services, screenings, and referrals. This collaboration reflects the commitment of both organizations to improving the health and well-being of disadvantaged communities, reaching those in need with essential medical services.

## Indus Hospital Partners with Quetta Gladiators for Community Health

The Indus Hospital has formed a partnership with the Quetta Gladiators, a renowned cricket team, to promote community health initiatives. The collaboration focuses on raising awareness about various health issues, including COVID-19 prevention, through joint campaigns and outreach programs. The Quetta Gladiators actively participate in activities organized by the Indus Hospital to educate and engage the public in adopting healthy practices. This partnership between the Indus Hospital and Quetta Gladiators exemplifies the powerful role that sports and popular figures can play in promoting public health and inspiring positive behavior change in communities.

# International Events

## Indus Hospital Network UK

Indus Health Network UK organized 8 successful fundraisers right before the holy month of Ramadan. These events took place in Cardiff, Sheffield, Manchester, West Yorkshire, East London, Croydon, Birmingham and Slough. Celebrities Bushra Ansari and Asma Abbas were present to entertain and inspire the attendees, who in turn donated generously to Indus Hospital & Health Network's cause. Dr Bari also gave an overview of IHHN's journey, and elaborated on the achievements of the network.

## Friends of Indus Hospital USA

Friends of Indus Hospital, USA, held 5 fundraisers in across the US, in Las Vegas, Seattle, San Francisco, Los Angeles and Fresno. Celebrity guests Sania Saeed and Mani captivated the crowd and enlightened them on Indus Hospital & Health Network's noble cause, receiving an overwhelmingly positive response in the form of generous donations.

## Indus Development Foundation Canada

Comedian Saad Haroon and veteran actress Sania Saeed graced us with their presence at two fundraisers in Calgary and Edmonton. These two evenings were full of laughter, entertainment and inspiration. Our guests were informed of Indus Hospital & Health Network's cause and achievements, and in turn they showed their support by donating generously.

# International Events

## Friends of Indus Hospital Switzerland

Veteran actresses Bushra Ansari and Asma Abbas flew in to Switzerland to meet with IHHN's supporters. Over the course of two fundraising dinners they garnered the valuable support of all those present for IHHN's noble cause, raising significant funds and entertaining the guests thoroughly.

## Friends of Indus Hospital Germany

On 6th January at the start of this year, Dr Bari, Founding President of IHHN and Dr Mah Talat, the Executive Director of the Community Health Directorate, both appeared online for a live telethon to update our followers in Germany on the efforts of IHHN towards assisting the flood affectees in Pakistan. The session was informative and showcased the scope and scale of the Network's response in times of crisis.

## Friends of Indus Hospital UAE

The Indus Hospital, Dubai, hosted a Meet & Greet Evening with Dr Bari, attended by prominent supporters of IHHN. Dr Abdul Bari expressed gratitude for the contributions of our donors towards IHHN's flood relief efforts and provided an update on the healthcare situation post-floods. Additionally, a ladies' coffee morning was organized in Dubai to raise awareness and welcome more people to the IHHN community of supporters. The event garnered a positive response, with several individuals and children signing up to be new members of the Indus Youth Ambassador Program.
